

You are invited to an information Session *for Western Canadian Cattle Producers*

Roblin Vet Services Ag Distribution has once-again partnered with industry-leading suppliers and would like to invite you to attend one of the following meetings:

Brandon MB 2-5 pm **January 14** 2019 Supper to follow Keystone Centre (MNP Hall)

Yorkton, SK 2-5 pm **January 15** 2019 Supper to follow Gallagher Centre (National A/B Hall)

Regina, SK 2-5pm **January 16** 2019 Supper to follow Delta Hotel 1919 Saskatchewan Dr.

Cargill Animal Nutrition/Diamond V:

- non-antibiotic NatureSafe feed supplement containing DV Bioactives formulated to optimize beef cattle health, performance and food safety.
- Cargill's Right Now Mineral Program including the industry-exclusive Altosid (IGR Fly Control in loose Mineral)

Alltech:

- Alltech's Mycotoxin Management Program is about seeing the whole challenge, from the farm to feed mill and from risk assessment to feed management. Learn how to identify, manage and mitigate the risks mycotoxins pose to your operation
- Alltech Crop Science provides natural-based products which optimize both plant and soil health resulting in higher yields and improved nutritional quality of forage crops resulting in higher feed efficiency

Union Forage:

- Annual and Perennial seed mixtures incorporating proprietary cultivars developed specifically for palatability and biomass production to fit your area and cattle operation.
- Introducing Brassetto and KWS Progas Hybrid Fall Rye from FP Genetics. Two new cereal silage varieties to raise total production and spread out the work load.

RSVP to Candace Ippolito at 306-360-7662
